CircumFix™

VARITRAX STERNAL CIRCUMFIXATOR®

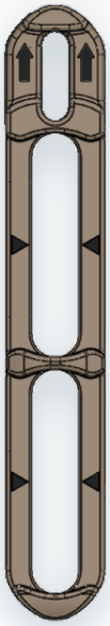

Sound biomechanics improve biological healing.

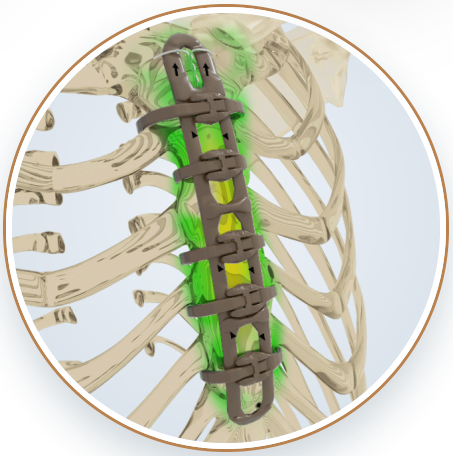

VariTrax distributes healing forces across the entire sternum, like a splint applied directly to bone.

KEY FEATURES

- Quick and easy application
- Bio-compatible polymer composition*
- Anatomically conforming
- Provides 3D stability[1]
- Load distributing[1]
- Radiolucent
- Unibody construction
- Reproducible technique
- Simple emergent re-entry and removal
- Sterile packaged

BUTTRESS PLATE

Anatomic, low-profile PEEK construct self-contours under tension and supports even load sharing the full length of the sternum.
